November 6, 2009

### **Lane Restrictions Scheduled Next Week On Allentown Road For Drainage Improvement In Hatfield Township**

**King of Prussia** – The Pennsylvania Department of Transportation (PennDOT) today announced that lane restrictions are scheduled on Allentown Road between Derstine Road and Nice Road in Hatfield Township, Montgomery County, next week (November 9-13) from 6 a.m. to 5 p.m. for drainage improvements.

Crews will also resurface Wambold Road between Sumneytown Pike and Detweiler Road in Lower Salford Township, Montgomery County, tomorrow (November 7) from 7 a.m. to 4 p.m.

The work is part of first of two contracts to build the five-mile long Sumneytown Pike/Route 309 Connector. PennDOT will build the new three-lane Sumneytown Pike between Old Forty Foot Road and Freed Roads and rebuild Wambold Road from Sumneytown Pike to Allentown Road. Eleven-foot travel lanes and five-foot to eight-foot shoulders will be constructed on both the realigned Sumneytown Pike and the reconstructed Wambold Road.

Allan A. Myers, LP of Worcester, PA, is the general contractor for the construction of the western half of the Sumneytown Pike/Route 309 Connector. The \$22,941,595 project is financed with 80 percent federal and 20 percent state funds. Construction is scheduled to finish in late 2012.

PennDOT expects construction to start in 2016 to build the eastern half of the Connector between Allentown Road and Route 309.

PennDOT reminds motorists they can log on to [511pa.com](http://511pa.com) or call 511 from any phone to check traffic conditions on major highways before heading out. For more information, visit [www.dot.state.pa.us/district6](http://www.dot.state.pa.us/district6) or call 610.205.6700.
